

## THE OZ PEARLMAN'S LECTURE

Oz Pearlman is a professional magician from New York City. He has released 3 best-selling card magic DVDs through Penguin Magic, and has recently completed a 9-month run of his Off-Broadway show, WatchMagic, where the NY Times hailed "even skeptical viewers are won over".

The lecture consists of a mix of close-up mentalism and magic, with an emphasis on very practical, commercial, and memorable routines. There is something for everyone at this lecture, ranging from beginner to advanced. Here are just a few of the items included in the lecture...

**Perfection** Quite possibly the most direct mental effect with a deck of cards ever conceived. And best of all, it is very easy to do!

**What's in a Name?** This has become Oz's signature effect in his strolling repertoire. This is an absolutely impossible prediction of a thought of person, including details about that person that the performer could not possibly know.

**21st Century Phantom** This routine is truly a reputation maker! A thought of celebrity is revealed in an incredibly unique manner, and is then bestowed upon the spectator as a very memorable (and marketable) souvenir.

"While all of Oz's material was absolutely first rate (audience killers, from his own working repertoire, which he has perfected over time), what was perhaps most impressive was his teaching style and ability..... Top marks all around!"
