

PIRACY OF MAGIC PRODUCTS

Dear Members of Ring 115,

It is unfortunate that unauthorised copies of magic products such as magic tricks and DVDs are openly available in the market. Some of them are blatantly passed on as original products.

They do not have the approval of their originators and are of inferior quality. Please do not support them. It is also morally wrong to purchase such products.

If this situation is not curbed, creative magicians will no longer find it beneficial to share their secrets freely. The magic community at large will suffer.

Patronise only from authorised and reputable magic dealers.
